### SIZING SUGGESTIONS

- Size up 1 size for a loose fit, 2 sizes for a baggy fit.
- All "Racer back" style jerseys are cut the same as the above chest measurements without any additional allowance. Please understand that "Racer Back" style jerseys are designed to be a tighter fitting jersey and order accordingly.
- In the event of indecision we suggest sizing up one size.
- We highly encourage teams to request samples so that sizing can be handled appropriately based on your garment selection.
  - Please note that ALL ProLook softball pants are a low rise waist.
  - Using a cloth tape measure, measure the circumference of the players waist. This measurement should be taken at the same position where the belt on a pair of typical jeans would normally be. Note that this position is not up on the waist, or down on the hips. (example to the right)
  - If a players waist measures 38", then you would order a size 38 pant. If they measure 39" you would order a size 40 pant.
  - If in doubt please request a sample from your rep.
